

PINCHOT IN POLITICS

Points Out Whys and Where-fores in Bills.

NATIONAL SOCIETY ADVISED

Former Forester, in Circular Letter to Members of National Association, Advocates the Enactment of Measure for Withdrawal of Public Lands—Suggests Amendments.

The National Conservation Association, of which Gifford Pinchot is president, intends to take active interest in politics in order to obtain the proper legislation for the conservation of the natural resources of the country.

Mr. Pinchot has issued a circular letter to the members of the association outlining the attitude to be assumed by the members toward nine bills pending in Congress.

He advises the members of the association to write to their members of Congress. Two of the bills, he said, are good, but need slight amendment. Two are both good and bad in equal proportion. Three other bills are bad.

The circular letter reads:

Urges Some Support.

"The amended bill on the withdrawal of public lands should have the unqualified support of the members of the association."

"In the same spirit of constructive criticism I ask your attention to the remaining eight bills and to changes which will be required in them in order that this association may advocate their enactment."

"We must get the best bills we can and then get them passed."

The fundamental principles underlying the coal and oil bills are sound, and Mr. Pinchot said they should be supported by the members of the association. The bill for the survey of railroad land grants should be enacted after it has been amended so as to take cognizance of the understanding between certain roads and the Forest Service for the return of railroad lands within the national forests to the United States in exchange for the right to cut in one body an amount of timber equal to that on the lands returned.

Mr. Pinchot said the reclamation bill should not be enacted. The bill to repeal the timber and stone act is also opposed by the association.

TALKS ON ASIATIC LABOR.

Representative McKinley Talks to Bible College Students.

Representative Duncan E. McKinley, of California, yesterday evening delivered an address before the Interdenominational Bible College at the Lincoln Memorial Church. Representative McKinley spoke on the Asiatic labor problem. The Bible college is at present studying sociology, under Prof. Jesse Lawson, teacher of sociology in the college. He presided at the meeting last night. After Representative McKinley's speech he conducted a further study.

On the platform with Prof. Dawson and Representative McKinley was Rev. Sterling M. Brown, pastor of the church.

APPROVE EIGHT-HOUR BILL.

Central Labor Union to Work for Passage of Burckett Measure.

Central Labor Union last night placed the stamp of approval on the bill introduced in the Senate last Thursday by Senator Burckett to regulate contract labor hours in the District.

Among other things the bill is to prevent contractors from bidding upon District work whose employees are required to work for more than eight hours a day. The Commissioners are authorized to reject the bids at their discretion.

The chairman of the legislative committee was instructed to procure a copy of the Sunday rest bill for consideration next week.

MRS. BELMONT GIVES TEA.

Shirt Waist Manufacturers Are Invited to the Function.

New York, Feb. 7.—Every one of the shirt waist manufacturers who yielded to the demands of the girl strikers received a personal invitation to tea at Belmont's with Mrs. C. E. P. Belmont, Miss Anne Morgan, and Miss Elizabeth Marbury. Mrs. Belmont made a speech of welcome.

The women manufacturers who had been able to leave their factories in time to attend the function, applauded the remarks enthusiastically, and Mrs. Belmont, after a moment's hesitation, went on to speak of the great cause of women.

Then Miss Dr. Eler, president of the Woman's Trade League, begged the manufacturers present to try to insist upon every one of their customers agreeing to the affixing of the union label on shirt waists.

One of the manufacturers explained that many of the large department stores would not stand for a union label.

SOCIALIST CONGRESS ENDS.

Will Hold Next Meeting in Copenhagen in August.

Nimes, France, Feb. 7.—The French socialist congress which opened yesterday, concluded its labors to-day, and adjourned after fixing the time and place for the next meeting as August 23, at Copenhagen. Seventy-two of the seventy-nine federations were represented by 229 delegates.

Prof. Herve, the anti-militarist, who represented the revolutionists, sat on the left, while Gen. Juarez occupied a seat in the center. M. Guesde, the head of the moderate socialists, was unable to be present owing to illness, but his followers occupied seats on the right.

Prof. Herve inaugurated a series of speeches in which the socialists were criticized for their attitude toward M. Clemenceau, the former prime minister, and M. Briand, the present premier.

The Munyon Almanac.

Prof. Munyon has just issued a most beautiful, useful, and complete almanac. It contains not only all the scientific information concerning the moon's phases, in all the latitudes, but has illustrated articles on how to read character by phrenology, palmistry, and birth month. It also tells all about reading, birth stones and their meanings, gives the interpretation of dreams. It teaches beauty culture, manuring, gives weights and measures, and antidotes for poison. In fact, it is a Magazine Almanac, full of valuable information, and will be sent to any one absolutely free on application to the Munyon Remedy Company, Philadelphia, Pa.

Herald Ads Bring Results.

OFFICE OF
D. J. KAUFMAN,
1005-1007 Pennsylvania Avenue.

February 7, 1910.

THE WASHINGTON HERALD,
Washington, D. C.

Gentlemen: We feel that it is due The Herald as an advertising medium to know of the wonderful business that has resulted from our advertisements in your paper. Never in the history of the "Man's Store" have we sold so many suits and overcoats as we have during this half-price sale, and we know that The Herald has helped us do it. Yours sincerely,

D. J. KAUFMAN.

GIFTS TO UNIVERSITY

Substantial Donations Received by Mgr. Shahan.

LEGACY FROM CORR ESTATE

Following Bequest of \$10,000 from Mrs. Wheaton Comes Announcement of Contribution to Catholic Institution from Philadelphia—Mgr. Shahan Returns from New England.

The Catholic University is proving a magnet for substantial donations. Its rector, Mgr. Shahan, has just been notified that the university is to receive a legacy, presumably large, from the estate of Matthew Corr, Philadelphia, lately deceased.

Another donation is that of Mrs. Caroline P. Wheaton, of Poughkeepsie, N. Y., from whom the university has just received \$10,000.

The amount of Mr. Corr's gift, though not known, is expected to be substantial. In view of the fact that he made minor bequests to charitable and benevolent institutions in Philadelphia amounting to \$20,000. He made the university his residuary legatee.

Close Friend of Archbishop.

Mr. Corr was born in Ireland. Some time ago he gave funds to build a church in his old home. He was a close friend of Archbishop Ryan, and was prominently identified, throughout a long and busy life, with religious and philanthropic movements. His brother, Bernard Corr, who is a man of large means, recently gave \$80,000 to Father William McCaffrey, with which to build a church in North Philadelphia.

Mgr. Shahan, who has just returned to the university from Providence, R. I., where he lectured before the Catholic Woman's Club, on "Education and Religion." He also assisted at the installation of Dr. Edmund Clark Sanford as president of Clark College, Worcester, Mass.

Lectures in the School of Sacred Sciences at the Catholic University will be discontinued for the rest of the week, as the students will go into a retreat tomorrow. The conferences of the retreat will be given by the Very Rev. L. F. Kearney, C. P., who recently completed his third term as provincial of the Dominican Order. The retreat will close Sunday.

KENYON ALUMNI MEET.

Hold Their Annual Smoker at the University Club.

The alumni of Kenyon College met last night in their annual smoker at the University Club. Dr. William F. Peirce, the president of the college, was the guest of honor.

Addresses were made by Dr. Peirce, Bishop Harding, Hon. Albert Douglas, and the Rev. J. A. Aspinwall. Those present were Dr. William F. Peirce, Matthew Trimble, James A. Nelson, the Hon. J. Van Kleeven, the Hon. Albert Douglas, C. E. Bronson, the Rev. J. A. Aspinwall, A. T. Bagley, the Rt. Rev. Alfred Harding, and the Rev. George F. Dudley.

The alumni association organized for the coming year by electing Matthew Trimble, of the class of '60, president, and A. T. Bagley, of the class of '62, secretary.

Representative's Son Dies.

New York, Feb. 7.—Alfred Cauldwell Rioridan, the only son of Representative Daniel J. Rioridan, died to-day of adenitis at the home of his father, 29 Oliver street. He was nine years and two months old. The trouble was not thought to be serious when he was put under the care of a surgeon on Saturday.

WEATHER CONDITIONS.

U. S. Dept. of Agriculture, Weather Bureau.

Washington, Monday, Feb. 7, 1910—8 p. m. The upper air observation at Mount Weather Monday showed a decided change to warmer as high as 3000 feet, at which altitude the temperature was 10 degrees; at a height of 6600 feet the temperature was 18 degrees, or 44 degrees higher than on Sunday at this season.

Following the rapid eastward movement of the cold wave, with its attendant high northwest winds, the wind shifted to southerly during Monday over the Middle Atlantic States, the Lake region, and the Ohio and Mississippi valleys, and a reaction to higher temperature is in progress over these regions. Temperatures below zero were recorded Monday morning in the New England States, the interior of New York, Northern and Central Pennsylvania, and the mountain districts of Maryland and West Virginia. The lowest temperature recorded at any Weather Bureau observatory was 22 degrees below zero at Canton, N. Y. The weather was fair during the last twenty-four hours in all parts of the country, except in Texas and on the Pacific Coast, where there were rains. There has been a marked change to warmer weather in the Western Plains States, the Upper Mississippi and Ohio valleys, and the Lake region. Moderate temperature is general over the extreme Western districts and the Gulf States.

The weather in the Middle and South Atlantic and New England States will be fair and warmer Tuesday, followed by unsettled weather and moderate temperature Wednesday. In the Gulf States the weather will be unsettled Tuesday and Wednesday, with moderate temperature, except that it will be colder over Northern Texas. In the Middle Mississippi Valley, Tennessee, the Ohio Valley, and the Lower Lake region the weather will be unsettled and warmer Tuesday, followed by local rains or snows Tuesday night or Wednesday. There will be snow showers in the Upper Mississippi Valley and the Upper Lake region Tuesday and in the latter district Wednesday. In the Plains States and the Rocky Mountain and Plateau regions the weather will be generally fair and colder Tuesday and Wednesday, except that there will be local snows in Utah and Wyoming Tuesday.

Colder weather will overcast the Upper Mississippi and Ohio valleys and the Lake region Wednesday. The winds along the New England coast will be moderate southerly; on the Middle Atlantic coast light to moderate south and southeasterly. On the South Atlantic and East Gulf coasts moderate easterly; on the West Gulf coast moderate southeasterly; on Lake Michigan and Lake Erie brisk southerly, shifting to northerly.

Steamers departing Tuesday for European ports will have moderate southerly and west winds and generally fair weather to the Grand Banks.

Local Temperature.
